

The image shows a map of a city street intersection. A blue line traces a path for an indirect left turn, starting from a road on the left, turning right onto a central road, and then left onto a road at the bottom. An orange line traces a path for a direct left turn, starting from the same road on the left and turning left directly onto the road at the bottom. A semi-transparent white box with a black border is overlaid on the map, containing two lines of text. The background map shows various buildings, streets, and landmarks.

All (11) - indirect left turns: 91.67%

All (1) - direct left turns: 8.33%
